Third Quarter 2018 Results

Commenting on the quarter, Eric Lloyd, Chief Executive Officer, stated, "Barings BDC is off to a strong start. On August 2, we closed the externalization transaction and immediately began deploying capital into broadly syndicated first lien loans. During the third quarter, we increased our broadly syndicated loan portfolio to over \$950 million and committed approximately \$87 million in middle market senior private debt and equity. Subsequent to the externalization transaction, we earned net investment income of \$0.06 per share, which exceeded our third quarter dividend by \$0.03 per share. The experience and capabilities of Barings as our investment adviser have enabled this quick start for the Company, and we believe the aligned interests among Barings and the Company's shareholders should continue to provide a competitive advantage going forward."

As previously disclosed, on July 31, 2018 the Company closed the sale of its portfolio assets to BSP Asset Acquisition I, LLC, an affiliate of, Benefit Street Partners, L.L.C. ("BSP") and on August 2, 2018, closed the externalization transaction with Barings LLC ("Barings" or the "Adviser"), pursuant to which Barings agreed to become the Company's investment adviser (the "Externalization Transaction").

During the three months ended September 30, 2018, the Company reported total investment income of \$12.1 million, a net investment loss of \$31.1 million, or \$0.59 per share, and a net decrease in net assets resulting from operations of \$101.4 million, or \$1.94 per share. The Company's net investment loss for the period included approximately \$36.0 million in one-time compensation and transaction-related expenses relating to the asset sale and Externalization Transaction. In addition, in connection with the asset sale, during the three months ended September 30, 2018, the Company recognized a realized loss on investments of approximately \$119.6 million, partially offset by a net realized gain on the repayments and sales that occurred between June 30, 2018 and the closing of the asset sale transaction of approximately \$1.8 million.

Third Quarter 2018 Results Subsequent to the Externalization Transaction

On August 3, 2018, Barings BDC commenced operations with Barings as investment adviser. From August 3, 2018 through September 30, 2018, the Company generated net investment income of \$3.3 million, or \$0.06 per share, and a net increase in net assets resulting from operations of \$3.9 million, or \$0.07 per share.

The table below presents the Company's income statement (i) for the three months ended September 30, 2018, (ii) for the period from July 1, 2018 through August 2, 2018, the closing date of the Externalization Transaction, and (iii) for the period from August 3, 2018 through September 30, 2018.

- (1) Amounts from our Unaudited Consolidated Statement of Operations for the three months ended September 30, 2018, representing the sums of the amounts for (i) the period from July 1, 2018 through August 2, 2018 and (ii) the period from August 3, 2018 through September 30, 2018, excluding per share amounts and weighted average shares outstanding.
- (2) Compensation expenses for the period from July 1, 2018 through August 2, 2018 included approximately \$27.6 million in one-time expenses associated with the asset sale and Externalization Transaction, including severance expenses, pro-rata incentive compensation, transaction-related bonuses, expenses related to the acceleration of vesting of restricted stock grants and deferred compensation grants, and other expenses associated with the obligations under our existing severance agreements and severance policy. General and administrative expenses for the period from July 1, 2018 through August 2, 2018 included transaction advisory fees, increased legal expenses and other direct costs related to the asset sale and Externalization Transaction totaling approximately \$8.4 million.

Net asset value ("NAV") per share as of September 30, 2018 was \$11.91 as compared to \$13.70 as of June 30, 2018. On July 31, 2018, after the sale of assets to BSP, NAV per share was approximately \$11.72. The decrease in NAV per share from June 30, 2018 to July 31, 2018 was primarily related to the net realized loss on the asset sale of \$1.27 per share, one-time compensation and transaction-related expenses of \$0.76 per share and the loss on extinguishment of debt of \$0.21 per share, partially offset by legacy Triangle Capital Corporation net investment income of \$0.04 per share and an increase in additional paid-in capital related to stock-based compensation of \$0.22 per share. The increase in NAV per share from July 31, 2018 to September 30, 2018 was primarily attributable to (i) accretion from a tender offer carried out by the Company following the closing of the Externalization Transaction of \$0.13 per share, (ii) BBDC's net investment income per share for the period subsequent to the Externalization Transaction exceeding the third quarter dividend by \$0.03 per share and (iii) net realized and unrealized gains on the BBDC investment portfolio of \$0.02 per share.

Liquidity and Capitalization

Immediately following the sale of assets to BSP, the Company repaid all of its outstanding indebtedness and held cash as its primary asset. As part of the Externalization Transaction, Barings made a \$100.0 million investment in newly issued shares of the Company's common stock at net asset value, providing additional cash available to be used for the Company's \$50.0 million issuer tender offer to purchase shares of its common stock, new portfolio investments and other operating cash needs. In addition, on August 3, 2018, the Company's wholly-owned subsidiary, Barings BDC Senior Funding I, LLC ("BSF"), entered into a new \$750.0 million credit facility, subject to a first-priority security interest in the assets of BSF (the "Credit Facility"). Borrowings under the Credit Facility are subject to compliance with a borrowing base, pursuant to which the amount of funds advance by the lenders to BSF will vary depending on the types of assets in BSF's portfolio.

As of September 30, 2018, the Company's \$1.1 billion investment portfolio included \$544.2 million of transactions which had not yet settled as cash. These cash settlements are expected to be funded with available cash and cash equivalents, sales of short-term money market fund investments, cash received from unsettled portfolio investment sales and additional borrowings under the Credit Facility. As of September 30, 2018, the Company had cash and cash equivalents of \$116.7 million, short-term money market fund investments of \$45.0 million, receivables from unsettled transactions of \$172.8 million and \$210.0 million of debt outstanding under the Credit Facility. The Company's debt-to-equity ratio was 0.34x as of September 30, 2018, or 0.69x when adjusting for unsettled transactions.

Commenting on the Company's liquidity position, Jonathan Bock, Chief Financial Officer of the Company, stated, "With adjusted leverage of 0.69x relative to the 2.0x limit approved by shareholders, the Company is positioned to increase future returns with the prudent use of additional leverage to fund our predominantly first lien, senior secured debt strategy. Barings' liquid credit team has invested over \$950 million in a syndicated senior secured loan portfolio that generates income for shareholders and provides the available liquidity we need to support our growing middle market portfolio. The capabilities of Barings to both quickly utilize and maintain liquidity have been critical during this transition period from an all-cash balance sheet."

Recent Portfolio Activity

During the three months ended September 30, 2018, subsequent to the Externalization Transaction, the Company purchased \$1,227.9 million in syndicated senior secured loans and made new investments in six middle market portfolio companies totaling \$75.3 million, consisting of senior secured private debt and one minority equity instrument. In addition, during the three months ended September 30, 2018, subsequent to the transactions, the Company received \$1.4 million of principal payments and sold \$275.6 million of syndicated senior secured loans and recognized gains on such sales totaling \$0.6 million.

Subsequent Events

From October 1, 2018 through November 7, 2018, Barings BDC made approximately \$79.9 million of new middle market private debt and equity commitments, of which approximately \$72.0 million closed. The \$72.0 million of middle market investments consist of approximately 89% of first lien senior secured debt and approximately 11% of second lien senior secured debt. The weighted average yield of the closed originations was 8.9%. In addition, as of November 1, 2018, Barings North American Private Finance group had a probability weighted pipeline of approximately \$859 million, in which Barings BDC may have the ability to participate. Not all deals may be suitable for Barings BDC and the Company's allocations will be determined in accordance with Barings Global Private Finance allocation policy.

10b5-1 Stock Purchase

On September 24, 2018, Barings entered into a Rule 10b5-1 Purchase Plan. Pursuant to the 10b5-1 Plan, an independent broker makes purchases of shares of the Company's

common stock on the open market on behalf of Barings in accordance with purchase guidelines specified in the 10b5-1 Plan. The 10b5-1 Plan was established in accordance with Barings' obligation under the externalization agreement to enter into a trading plan pursuant to which Barings committed to purchase \$50.0 million in value of shares in open market transactions through an independent broker. The maximum aggregate purchase price of all shares purchased under the 10b5-1 Plan is \$50.0 million. The 10b5-1 Plan commenced on September 24, 2018 and will terminate upon the earliest to occur of (i) two years following September 24, 2018 (tolled for periods during which the 10b5-1 Plan is suspended), (ii) the end of the trading day on which the aggregate purchase price for all shares purchased under the 10b5-1 Plan equals \$50.0 million and (iii) the occurrence of certain other events described in the 10b5-1 Plan. As of November 7, 2018, Barings had purchased 1,901,763 shares pursuant to the 10b5-1 plan and thereafter, owned 10,457,142 shares of the Company's common stock, or 20.4% of the total shares outstanding.
